EPX BODY CARDIO was formulated to help restore an optimal balance of nutrients — promoting overall cardiovascular health. The body's own natural ability to produce nitric oxide is reduced as we age. The ingredients in EPX Body Cardio were chosen for their ability to support the body's production of nitric oxide and be an important part of your daily cardiovascular maintenance program. *

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

DIRECTIONS: Mix 1 scoop with 4-8 ounces of water. Stir to dissolve. If water is very cold, mixture will take about one minute to dissolve. One scoop may be taken twice per day between meals on an empty stomach. One scoop provides 5,000 mg of L-arginine and 1,000 mg of L-citrulline.

Store in a cool, dry place.

CAUTION: Consult your health care provider prior to using this product if you are pregnant, nursing or have a known serious medical condition.
